

Machine Binding-Tips and Techniques Supply List

Basic Sewing Supplies

Rotary cutter

Thread-neutral

Bobbin wound with matching thread

Clips and pins

Schmetz Microtex needle-80 (optional)

Marking pen-not Frixion

Spray starch

2 or 3 2-inch strips of fabric; I will have some available for you to use

REQUIRED-Payable to instructor at class

\$3.50 - Kit will include:

- Pre-quilted fabric, 12"x18"
- 4 ounce bottle of Elmer's White Washable School Glue

Optional:

- Sue Heinz Elmer bottle and glue tip-for purchase at \$7 each from instructor. Advance order required.

- I prefer to use a Pfaff Bi-level presser foot. The Pfaff original equipment foot is pricey, and can probably be ordered from Sew Yeah. The ones that are available online are usually generic, and I cannot vouch for their quality. I will have my foot for you to try. The Pfaff 635 we have in the sewing room use a Pfaff foot category "K". You may want to purchase an equivalent foot for your own person machine. We can talk about options.
